

...nasty symbol slashes wreak havoc on unsuspecting stitchers.

Never trust a salesman to be your desktop publisher!

On May 20, 2000, we mailed four new charts out to our fabulous shop owners and distributors. Unfortunately, after checking and rechecking for errors, my husband made one last "little change" to the "Halloween Highway" instructions. Eerily, that changed the alignment on our symbols, adding slashes where they didn't belong. ...SO SORRY!

Below is a reprint of the symbols as corrected.
