

YEARBOOK DOUBLE FLIPS

Instructions to Stitch the Year Together!

Here's how to combine all of the Yearbook designs into one large calendar of stitches. We stitched all 12 months together on 32 ct. Light Mocha linen. Choose whatever fabric color and count you prefer. Just make sure the thread colors show up and look pleasing on your fabric.

Stitch count for entire project is 69W x 546H

Our thread list follows. We used one skein of all colors, except as indicated by numbers in parentheses. Weeks Dye Works begonia, bright leaf (2), capri, carrot, Chablis, deep sea, grapevine (2), honeysuckle, merlot, moss, whitewash (2). DMC 368, 3354.

To combine the months, just stitch them vertically as shown in picture on the back of each Calendar Double Flip and on this website. We left 5 spaces (5 boxes on a graph) between each month. You can put them closer together if you prefer. The finished stitch count will be slightly smaller in height.

Enjoy your Yearbook!
